2020 Subscription Price List

TO PLACE AN ORDER

• Properly identify order type, i.e.: back issue(s), special publication(s), subscription.
• Include necessary end-user information, such as IP range or email address (for internal use only).
• We do not accept orders for individual memberships/subscriptions through agencies.
• We do not automatically send invoices or receipts to agencies. You will receive a payment confirmation.

Definition of subscription terms

• Calendar Year Subscription starts in January and ends in December. Orders received after the Calendar Year subscription period begins will be back-started.
• Anytime Start Subscriptions start with the first available issue.

Instructions concerning payments

• Payment is required in advance.
• Subscriptions are non-transferable and non-refundable.
• Do not send one payment to cover multiple subscription titles.
• Check All checks must be made payable to the journal. We only accept checks that are in US dollars and drawn upon a United States bank.
• Credit Card We currently accept Discover, MasterCard or Visa credit card payments. We do not accept American Express. For security purposes we do not accept credit card information by email.
• Shipping All subscriptions include surface mail. Additional charges will be added for air mail delivery. Only certain journals offer air delivery. Check individual journal listings.

CLAIM POLICY

A “claim” is hereby defined as a written request by a subscriber of a publication due to damage, faulty copy or non-receipt.

1. All claims must be submitted via mail, fax or email.
2. All claims must be received within two months of the journal mail date for United States addresses and four months for non-United States addresses.
3. If claim is approved, replacement issue(s) will only be provided once. After initial replacement, the issue must be purchased.
4. The quantity of issues per volume that may be claimed is determined by the quantity of issues per subscription term.
   a. If there are 1–3 issues in the subscription term, the maximum that can be claimed is 1.
   b. If there are 4–7 issues in the subscription term, the maximum that can be claimed is 2.
   c. If there are 8–12 issues in the subscription term, the maximum that can be claimed is 3.

AMERICAN JOURNAL ON INTELLECTUAL AND DEVELOPMENTAL DISABILITIES

According to the most recent ranking of impact factors (from June 2010) in Journal Citation Reports, the American Journal on Intellectual and Developmental Disabilities (formerly the American Journal on Mental Retardation) is ranked No. 2 in “Special Education” and No. 2 in “Rehabilitation.” The premier journal in its field for more than 115 years, AJIDD publishes expert contributions on the treatment and prevention of intellectual disabilities. The Journal is an essential reference for researchers in the biological and health sciences, and a crucial addition to human services libraries.

COPEIA

COPEIA is the official publication of the American Society of Ichthyologists and Herpetologists. It is an internationally respected and widely-cited journal that publishes original research on fishes, amphibians and reptiles. It emphasizes systematics, ecology, behavior, genetics, morphology and physiology. In addition, the journal includes news of members and their activities, a summary of the annual meetings, book reviews, and notices of new publications of interest to members.

EVANSIA

The aim of Evansia is to provide a vehicle for the presentation and exchange of useful information on North American bryophytes and lichens. Articles are frequently popular in nature rather than technical and are intended to teach and inform both amateurs and professionals. The articles include, but are not restricted to, announcements of and reports on forays and meetings, presentations of techniques and aids for studying and curating lichens, bryophytes, and hepatics; and reports on local floras. Occasionally, articles of broad interest from locations other than North America may be included.

The Journal of Graduate Medical Education disseminates scholarship and promotes critical inquiry to inform and engage the graduate medical education community to improve the quality of graduate medical education. It is a peer-reviewed, editorially independent journal published by the Accreditation Council for Graduate Medical Education. The journal was created to improve the quality of graduate medical education during a time of great change. JGME has 2 goals: (1) to provide a venue for educators and researchers to publish valuable research and innovation about residency and fellowship education and (2) to improve the quality of research available to inform graduate medical education training decisions. Articles about any aspect of resident and fellow training are appropriate for JGME. Single or multispecialty reports, and single- or multi-institutional reports are encouraged; single-specialty studies should be of interest and potentially applicable to other specialties.

INTELLECTUAL AND DEVELOPMENTAL DISABILITIES

Intellectual and Developmental Disabilities (IDD) is a peer reviewed multidisciplinary journal of policy, practices, and perspectives. Since 1963, IDD has provided a forum for the dissemination of rigorously reviewed, actionable information that is relevant to emerging policies, innovative practices, and transformative concepts. As a journal with an applied focus, IDD has dedicated itself to the needs of researchers, clinicians, students, policymakers, and other professionals interested in intellectual disability and related developmental disabilities.

JOURNAL OF COASTAL RESEARCH

The Journal of Coastal Research provides an international forum for the littoral sciences. This professional, peer-reviewed journal is dedicated to all aspects of integrated coastal research. The Journal disseminates knowledge and understanding of coastal areas by promoting communication among specialists in geology, biology, geography, climate, littoral oceanography, hydrography, engineering, and remote sensing. The Journal contains scholarly papers, review articles, book reviews, and editorials, and also provides additional special issues on specific topics.

Print ISSN: 0749-0208  eISSN: 1551-5036
Peer Reviewed: Yes  Subscription Term: Calendar Year
Frequency: Bimonthly (Jan, Mar, May, July, Sept, Nov)
Back Issue Availability: Please contact our Business Office for back issue availability.
Back Issue Price: USA-$50/issue  Non-USA-$65/issue
Subject(s): Coastal Geomorphology, Coastal Engineering, Coastal Ecology, Environmental Sciences, Geosciences Marine Biology, Marine Geology, Multidisciplinary Environmental Sciences, Physical Geography

Abstracted and/or Indexed in: The Journal of Coastal Research (JCR) is currently surveyed in Web of Science (WoS) Core Collection / Web of Knowledge (Clarivate Analytics); Science Citation Index Expanded; SCOPUS (Elsevier); BioOne Complete; JSTOR; EBSCO; ProQuest; Charlesworth; BIOSIS Previews; Zoological Record; Biological Abstract; H.W. Wilson Company; Thomson Reuters (ISI); Cabells Scholarly Analytics; Essential Science Indicators; Chemical Abstracts Service (CAS); Gale Group (Gale/Cengage Learning); Copyright Clearance Center, Inc. (CCC); Current Contents - Physical, Chemical & Earth Sciences; and Current Contents - Agriculture, Biology & Environmental Sciences.
JOURNAL OF FORAMINIFERAL RESEARCH

The Journal of Foraminiferal Research is the official publication of the Cushman Foundation for Foraminiferal Research. It continues the Contributions from the Cushman Laboratory for Foraminiferal Research, which were published from 1925 until 1950, and Contributions from the Cushman Foundation for Foraminiferal Research, which were published continuously from 1950 until 1970. JFR publishes original papers of international interest dealing with the Foraminifera and allied groups of organisms.

Print ISSN: 0096-1191
Peer Reviewed: Yes Subscription Term: Calendar Year
Frequency: Print copies published biannually, Online published quarterly
Back Issue Availability: Please contact our Business Office for back issue availability.
Back Issue Price: Contact business office
Subject(s): Foraminifera and allied groups of organisms.

JOURNAL OF FORENSIC ECONOMICS

The Journal of Forensic Economics (JFE) is an academic refereed journal. Articles have content within forensic economics, the scientific discipline that applies economic theories and methods to the issue of pecuniary damages as specified by case law and legislative codes. The JFE is a publication of the National Association of Forensic Economics. Topics within the JFE include (1) the analysis of claims involving persons, workers, firms, or markets for evidence concerning damage liability; (2) the calculation of damages in personal and commercial litigation; and (3) the development and use of generally accepted forensic economic methodologies and principles. Subscribers to the JFE include economists, attorneys, accountants, vocational specialists, and university libraries.

Print ISSN: 0749-0208  eISSN: 1551-5036
Peer Reviewed: Yes  Subscription Term: Anytime Start
Frequency: 2 issues per term

Back Issue Availability: Back issues may be purchased as available from NAFE, Journal of Forensic Economics, PO Box 7065 Lawrence KS. 66044 USA
Phone: 1-800-627-0326.

Back Issue Price: $30.00 per issue to libraries, includes first-class mailing. Prepayment required. MasterCard and Visa accepted.

JOURNAL OF WILDLIFE DISEASES

The Journal of Wildlife Diseases publishes the results of original research and observations dealing with all aspects of infectious, parasitic, toxic, nutritional, physiologic, developmental, and neoplastic diseases; environmental contamination; and other factors impinging on the health and survival of free-living or captive populations of wild animals, including fish. Papers on zoonoses involve wildlife, and on chemical immobilization of wild animals, also are published. Authors are encouraged to address the wildlife management implications of their studies, where appropriate.

Radiation Research publishes articles dealing with radiation effects and related subjects in the areas of physics, chemistry, biology, and medicine, including epidemiology and translational research. The term radiation is used in its broadest sense and includes specifically ionizing and ultraviolet, visible and infrared light as well as microwaves, ultrasound, and heat. Related subjects include (but are not limited to) studies with chemical agents contributing to the understanding of the effects of radiation, isotope techniques, and dosimetry methods and instrumentation.

Rubber Chemistry & Technology is the biggest and oldest scientific journal focused exclusively on the science and technology of rubber. The RC&T scope includes enduring and fundamental topics such as the chemistry, mechanics, and materials science of rubber, as well as applied and emerging topics such as nano, bio, and green technology, characterization, and simulation. Rubber Chemistry and Technology Journal is read by scientists and engineers in academia, industry, and government, and has been published since 1928.

SMPTE MOTION IMAGING JOURNAL

Published since 1916 by the Society of Motion Picture and Television Engineers, the SMPTE Motion Imaging Journal has long been the place for technologists who want to learn about the latest developments in the motion imaging industry. The Journal’s primary objective is to follow the progress of engineering developments in the motion imaging fields. The journal publishes papers on technical, engineering, and scientific developments in motion pictures, television, and related fields, including desktop video, multimedia, and computers.

TIRE SCIENCE AND TECHNOLOGY

Tire Science and Technology is a peer-reviewed, scholarly journal that addresses the development and application of experimental, analytical, and computational science. It is published quarterly by the Tire Society, Inc., an Ohio not-for-profit corporation. Their objective is “to increase and disseminate knowledge of the science and technology of tires”. Topics of interest to journal readers include, but are not limited to: adhesion, aerospace, aging, agriculture, automotive, composite materials, constitutive modeling, contact mechanics, cord mechanics, curing, design theories, durability, elastomers, finite element analysis, force and moment behavior, groove wander, heat build up, hydroplaning, impact, manufacturing, mechanics, military, noise, pavement, performance evaluation, racing, rolling resistance, snow and ice, soil, standing waves, stiffness, strength, traction, vehicle dynamics, vibration, wear. Tire Science and Technology is the world’s leading technical journal dedicated to tires. The Editor publishes original contributions that address the development and application of experimental, analytical, or computational science in which the tire figures prominently. Review papers may also be published. The journal aims to assure its readers authoritative, critically reviewed articles and the authors accessibility of their work in the permanent literature.

WILSON JOURNAL OF ORNITHOLOGY

For more than a century, WOS has published a scholarly journal with form and content accessible to both professional and amateur ornithologists.

The Wilson Journal of Ornithology is a peer-reviewed quarterly publication consisting of major articles based on original studies of birds and short communications that describe observations of particular interest. Each issue also includes reviews of new books on birds and related subjects, as well as ornithological news. Through an endowment from the late George Miksch Sutton, each issue of the Journal includes a full color frontispiece. Each current volume consists of approximately 500 pages.

The principal focus of WJO is the study of living birds, their behavior, ecology, adaptive physiology and conservation. Although most articles originate from work conducted in the western hemisphere (a large portion of the research on Neotropical birds is published here), the geographic coverage of WJO is global. The Wilson Journal of Ornithology is internationally recognized as an important, major journal of ornithology.
