RHODORA

Rhodora is a peer-reviewed journal of botany that includes articles about systematics, floristics, ecology, evolution, biogeography, population genetics, paleobotany, and conservation biology of the flora of North America and floristically-related areas. Scientific papers and notes relating to this area and articles concerned with systematic botany and cytotaxonomy in their broader applications will be considered.

Print ISSN: 0035-4902 **eISSN:** 1938-3401
